

To Whom it May Concern:

I have listened to the radio station K-LOVE in Chicagoland for as long as I can remember. It has brought me comfort in difficult times, as well as peace in my home for me and my daycare children. We greatly enjoy the musical selections as well as the commentaries, teachings, etc. that this station has to offer. I would be sadly disappointed if you were to change this station to a broadcast other than Christian radio as my life has deeply benefitted from the Christian broadcasting offered by K-LOVE. I have heard multiple testimonies of how K-LOVE has changed the lives of desperate people in the broadcasting area as per testimonies played on the station itself, AND personally, from friends who were in difficult places in their lives and heard a particular comment, scripture, or song that helped them in a positive way in their personal lives.

Please, I implore you, do not sentence K-LOVE to death. Please permit the continued broadcast of this particular station to us Chicagoans. We have been changed in a positive way from this station.

Thank you.

Sincerely,

Joy Koenigsmark
